"What opportunities can we provide students that allow them to take ownership of their learning & prepare them to be creative, critical-thinking problem solvers?"

Summary

20 years' experience in PK-12 public education gives me a unique perspective on teaching, learning, and administration. With a focus on technology integration and innovative, future-ready teaching and learning my strengths include planning, organization, creativity, social media, and problem-solving. I believe in transparency, integrity, collaboration, and long-term, forward-looking vision.

Accomplishments
